

960MHz ~ 3000MHz

* Supplementary information on the next page

Supplementary information on situation of spectrum use

[960 - 3000MHz]

Number	Frequency Band (MHz)	主な用途
[1]	1215 - 1300	Used for the land surveillance satellite, etc.
[2]	1429 - 1453、1465 - 1468、 1477 - 1501、1513 - 1516	Cellular phones
[3]	1468 - 1477、1516 - 1525	The use of this frequency band by MCA is allowed only until 30 September 2007.
[4]	1525 - 1559、1610 - 1660.5	Mobile satellite communication service by INMARSAT, etc.
[5]	1668.4 - 1700	Data transmission for the meteorological satellites and radio sondes
[6]	1710 - 2025、2110 - 2200、 2500 - 2690	Frequency bands identified for use for the terrestrial component of IMT-2000. Used for IMT-2000 (single wave system) in the 2010-2025 MHz band. Used for IMT-2000 (two-wave system) in the 1749.9 - 1784.9MHz/1844.9 - 1879.9MHz, 1920 - 1980MHz/2110 - 2170MHz bands.
[7]	1980 - 2010、2170 - 2200	Frequency bands identified for use for the satellite component of IMT-2000.
[8]	2025 - 2110、2200 - 2300	Satellite control and rocket tracking
[9]	2400 - 2483.5、2471 - 2497	Unlicensed Low-Power Data Communication System such as wireless LANs. Mobile Terminal Identification (2400 - 2483.5MHz)
[10]	2483.5 - 2535、2655 - 2690	Mobile satellite communication services.
