

***RED-CA***

*Radio Equipment Directive - Compliance Association*

## ***Presentation at MIC MRA International Workshop***

**March 2018**

**By Chairman REDCA: Pieter de Beer**

# REDCA

The REDCA provides a forum for people with an interest of the compliance of radio equipment with the regulations and technical standards in the European Economic Area.

**In particular formed under the requirements of the Radio Equipment Directive 2014/53/EU specifically for Article 26.11 and Article 38 for Notified Bodies.**

Members as of February 2018 are (231) and a number pending acceptance at the next REDCA meeting:  
they all need to follow the aims and objectives set out in the Associations Rules and Constitution.

The annual fee for REDCA Membership is €600

# REDCA

**Originates from previous associations active under the applicable EU Directives at that time:**

ADLNB: Association of Designated Laboratories and Notified bodies, active under the TTE Directive (Telecommunications Terminal Equipment Directive 91/263/EEC)

R&TTE-CA: Compliance association under the Radio and Terminal Equipment Directive 1999/5/EC. When the R&TTE Directive has been replaced with the RED this previous association was renamed into REDCA

# REDCA

What does REDCA do?

- REDCA publishes Technical Guidance Notes (12) and reference Doc's
  - See website <http://www.redca.eu>
- The Association meets twice a year in a location within the EEA
  - Members only
  - With Representatives of the EU Commission, ECC, ETSI, ADCO RED and authorities from MRA countries.
- Has a mail server for members where they can ask questions that will trigger answers and comments from the experts within the Association
- Has a specific protected area on the CIRCABC website for documents
